“My Name” from *The House on Mango Street* by Sandra Cisneros

In English my name means hope. In Spanish it means too many letters. It means sadness, it means waiting. It is like the number nine. A muddy color. It is the Mexican records my father plays on Sunday mornings when he is shaving, songs like sobbing.

It was my great-grandmother's name and now it is mine. She was a horse woman too, born like me in the Chinese year of the horse-- which is supposed to be bad luck if you're born female-- but I think this is a Chinese lie because the Chinese, like the Mexicans, don't like their women strong.

My great-grandmother. I would've liked to have known her, a wild horse of a woman, so wild she wouldn't marry. Until my great-grandfather threw a sack over her head and carried her off. Just like that, as if she were a fancy chandelier. That's the way he did it.

And the story goes she never forgave him. She looked out the window her whole life, the way so many women sit their sadness on an elbow. I wonder if she made the best with what she got or was she sorry because she couldn't be all the things she wanted to be. Esperanza. I have inherited her name, but I don't want to inherit her place by the window.

At school they say my name funny as if the syllables were made out of tin and hurt the roof of your mouth. But in Spanish my name is made out of a softer something, like silver, not quite as thick as sister's name Magdalena--which is uglier than mine. Magdalena who at least- -can come home and become Nenny. But I am always Esperanza.

I would like to baptize myself under a new name, a name more like the real me, the one nobody sees. Esperanza as Lisandra or Maritza or Zeze the X. Yes. Something like Zeze the X will do.

Sarah's example

In Hebrew my name means princess. In school, it means that a half dozen people answer whenever someone says my name. It means common, it means ordinary. It is like going to a back alley filled with cats and calling, "Here kitty."

It was my great-grandmother's name and now it is mine, as well as about one hundred people that I know. She was a woman who had the unfortunate luck of having parents who thought, isn't Sarah a nice name?

I would've liked to know how the name began. Maybe God just reached into a sack and pulled a name out, just like that, as if it were as easy as deciding which pencil to write with.

And the name lives on. I could live my whole life and never be the only Sarah around. I may have inherited a name, but I am still my own person.

Sometimes I would like to baptize myself under a new name, a name unique to me. Then, whenever someone calls for me, I'll know. Yes, I'll know who they are talking to.
